# Cabal - One World Order

- Ruled by Lucifer and Jesuit Black Pope
- Mix of International Bankers, Black Nobility, Illuminati, Club of Rome, Vatican
- Preadamites, Draco, and Bloodline families
- Khazars - False Jews
- Zionists
- Bolsheviks
- Seeking to bring Order out of Chaos
- Watch Change is on the Horizon to learn more.

# Reich - New World Order

- 3<sup>rd</sup> Reich - Representing the Nazi's (Nationalsozialistische Deutsche Arbeiterpartei / National Socialist German Workers' Party), Schutzstaffel (SS), and Hitler. Their adopted racist policies were encouraged by Nordic and Draco ET contacts. Resented the Cabal due to the bankers buying up land in the Hyperinflation era of the Weimar Republic and forcing German farmers off their land to starve the nation.
- 4<sup>th</sup> Reich - 3<sup>rd</sup> Reich Nazis embedded into Cabal governments and corporations under guise of Project Paperclip. Most members originated from Base 211 in Antarctica.
- 5<sup>th</sup> Reich - 3<sup>rd</sup> Reich Nazis who settled Antarctic and later space colonies throughout time. They don't consider themselves Nazi's but compare themselves more to the Teutonic Knight order which was used to aid Christians during the crusades. They prefer to be known as Germans and have their own breakaway civilization.

# Thule Vril-Ya Contact

- In 1918 the Vril Girls such as Maria Orzich would channel Nordic and Draco ET communications for the Thule Secret Society at a secluded cabin in the forest foothills of the Alps, near Berchtesgaden.
- Taught how to construct advanced electro-gravitic platforms, temporal displacement technology, teleportation technologies.
- Began to settle Mars in the 1840s via time loop technology.

# Racist Policies

- Nordic ET's are very beautiful and telepathic blonde-haired humanoids that are also very racist.
- Members of the SS such as Heinrich Himmler would be so taken by their presence, they would engage in sex orgies and afterward would do whatever they wanted, such as the Final Solution with the Jews.
- There is an alternate reality in which the Nordic's lost interest in supporting the Nazis and in that reality the Nazis embraced the Jews and other races and also won World War II.
- In the early 1920's Thule member Dietrich Eckart invited Adolf Hitler to these black magic séances as he was selected to be the future antichrist by these negative ET races.

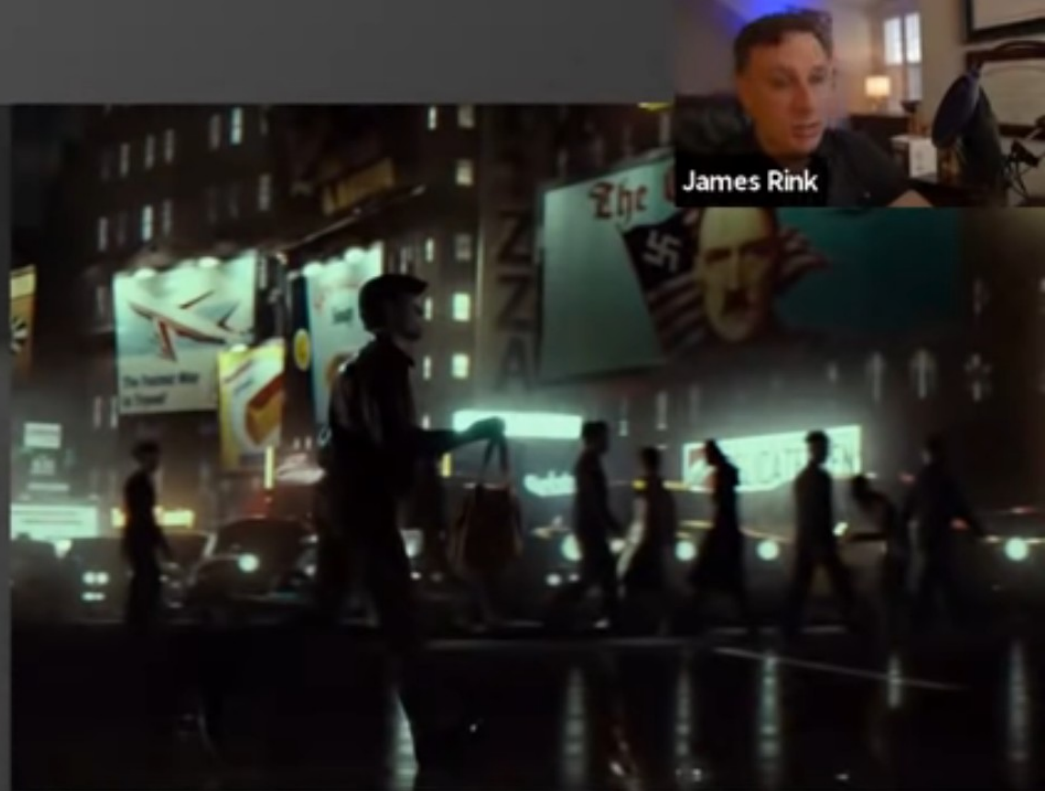

James Rink

zoom

# Nazi Parallel Earth

- Hitler did not implement final solution and they embraced the Jews.
- Did not attack Soviet Union. Encouraged nations to join the axis by offering them advanced technology to free them from the Cabal.
- No interracial marriage unless you want to live in camps.
- Washington Monument blown up and replaced with a 150ft column spinning eagle.
- Minimum wage is \$40 dollars a hour equivalent, everyone lives in mansions.

James Rink

# Nazi Parallel Earth

- Most people drive Mercedes and BMW's that get a 50,000 mile battery charge off the lot and cost only \$5,000 USD equivalent.
- USA split up Germans control East/ Japanese Control West Coast.
- Tesla given a unlimited budget and released amazing techs like reaging, free energy, teleportation, and antigravity.
- Hitler and Tesla are still alive.
- Hitler personally killed Paul Serene Head of Monarch.

# Space Flight

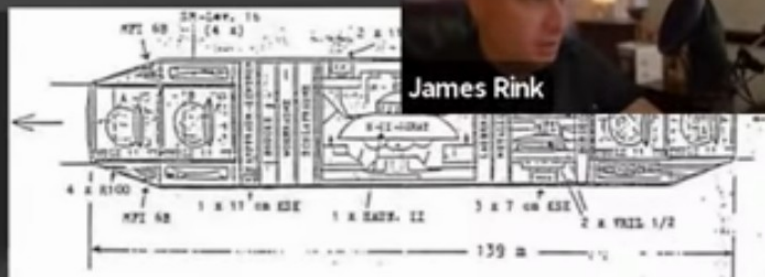

- In 1922, Thule and Vril jointly produced the JFM (Jenseitsflugmaschine) or "Other World Flight Machine". It was just the engine and was bench tested on a tether for two years. It was during this time that the antigravity and time distortion fields were noted.

# Space Flight

- By 1936, Nazi anti-gravitic programs were advancing nicely with a regiment of flying saucer type craft that were capable of space flight including the Rundflugzeug, Vril, Haunebu, and Andromedagerat type crafts.

# Space Flight

- Die Glocke or The Bell contained a mercury powered superconductor spinning at 90,000 RPM which could be used for space flight levitation and probably time travel as well.

# THE ANDROMEDA MACHINE

- THE "ANDROMEDA MACHINE" PICTURED BELOW, MEASURED 300 METERS ACROSS, AND WAS CAPABLE OF CARRYING A CREW OF 200. THE FIRST TEST FLIGHT WAS MADE ON DECEMBER 8, 1942. DUE TO THE SIZE OF THE "CIGAR SHAPED CRAFT", THE ANDROMEDA MACHINE WAS STORED IN A MODIFIED ZEPPLIN HANGER, NEAR BERLIN. THE DEVICE CARRIED ENOUGH FOOD AND WATER FOR TRIPS LASTING UP TO THREE YEARS. THE INTERIOR COMPARTMENTS HELD 2 SCOUT SAUCERS, 2 ATTACK SHIPS, AND ONE 200 FT. DIAMETER BATTLE SAUCER. THE PROPULSION SYSTEM CONSISTED OF 3 ROWS OF "COLER CONVERTERS", THAT INTERACTED WITH 50 ELECTRO-MAGNETIC INDUCERS. A STATIC ELECTRIC CHARGE WAS THEN DIRECTED TO THE ON-BOARD TESLA COILS, WHICH GENERATED A NEAR 100% ZERO-POINT ENERGY CONVERSION. THE CRAFT WAS USED TO LOCATE NEW TERRITORY FOR THE THIRD REICH, IN CASE THINGS WENT WRONG FOR THE NAZI REGIME. A TOTAL OF 11 TRIPS WERE MADE TO MARS BETWEEN 1942 AND 1945, INCLUDING 21 TRIPS TO GALAXIES OVER 3 LIGHT YEARS FROM EARTH. THE EXTRATERRESTRIAL BIOLOGICAL ENTITIES BROUGHT BACK FROM THESE MISSIONS, WERE EVENTUALLY STORED AT AREA 51 IN THE NEVADA DESERT.

# Moon Base

- Around this time, the Nazis contacted the Draco's to negotiate permission to build a 20-acre Moon base in their territory on the dark side of the Moon in the Jules Verne Crater as all suitable base locations on the Moon were already claimed by other species who had no interest in sharing space.
- The Draco are giant winged reptilians roughly 9' to 12' foot tall. They tend to be very cunning, intelligent, manipulative, and predatory to other races that they come in contact with. They are mostly responsible for causing the destruction of Atlantis.

# Base 211 - Antarctica

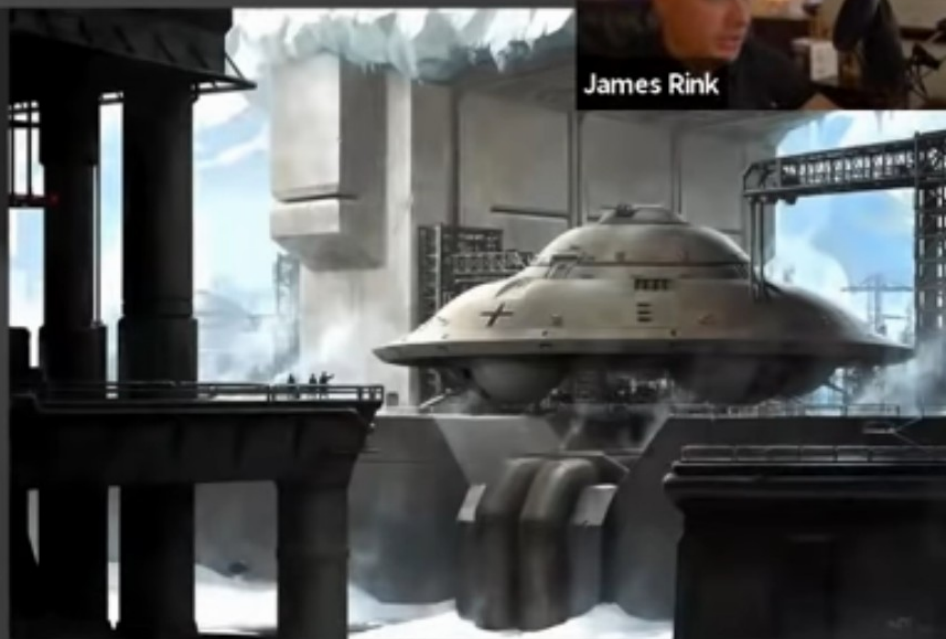

- In addition to the Nazi Moon base, Base 211 in Queen Maud Land Antarctica was in the beginning stages of construction and was settled by 1938.
- By 1940 the Antarctic base had 300,000 people living there, serviced by German U-boats. They used geothermal energy to power their facilities and then later free energy. Also, the Draco wanted the tech of ancient ruins in the area as Antarctica used to be an ancient Atlantean outpost prior to the continent sinking into the Atlantic.
- Germany paid off their international bank loans and were bartering with other countries for goods and supplies; and they also managed to get rid of their central banks. As a result, the KZB banking Cabal declared war on them. Four months later, the Nazis were ready to invade Poland.

zoom

# Base 211 - Antarctica

- Near the end of the war, Hitler, realizing the allied forces may win the Second World War, executed a contingency escape plan allowing many Germans to escape to South America and Antarctica.
- When the war was going badly for the Germans, the Neuschwabenlanders in Antarctica, as they called themselves, viewed Hitler as insane and decided against providing any war support to the Reich.

zoom

# ODESSA / PAPERCLIP

- After the Nazis were kicked out of mainland Europe, Antarctic Germans (AG's) began pressuring the Cabal into a cease fire. General Eisenhower and Patton went into some of the underground Nazi bases and were shocked at how advanced the Nazi's were.
- To garner the cooperation of captured Nazi scientists and engineers, the Cabal agreed to give Germany the equivalent of \$1 Quadrillion USD in modern day dollars in debt forgiveness, as well as a Marshall Plan to rebuild the motherland.
- In 1947, under the urging of Nazi Spy George Bush Sr., Congress set up the Office of Strategic Service or the O.S.S., which was the precursor for the C.I.A. to get hold of advanced technology.
- With the help of George Herbert Bush, "Wild Bill" Donovan, and Allen Dulles, the O.S.S. and Nazi SS merged to create the C.I.A.
- Coined "Project Paperclip" and its Nazi counterpart "ODESSA," the C.I.A. covertly transferred roughly 50,000 Nazis scientists into the American military industrial complex.

# Operation High Jump

- In 1946-1947, Operation High Jump, headed by US Navy Admiral Richard Byrd, was tasked with a massive assault on the German Base 211 in Antarctica which ended in near annihilation for the American forces as they were met with astonishing weaponry.
- The expedition to Antarctica involved 4000 naval personnel and 13 huge ships, including several large airplanes and helicopters.
- The goal was to map and catalog all of the coastline of the continent, including minerals and wildlife. The entire expedition was to last 6 months.
- Several teams of explorers were sent out to various corners of Antarctica with large format cameras for the photographic survey. When the crew photographing the region directly Southwest of the Australian continent arrived for their mission they were shocked. They radioed back that the coastal region was free of ice and that the water was 38F.

James Rink

zoom

# Operation High Jump

- Immediately after this event the entire expedition was halted and all ships and Naval personnel were made to return to the States.
- A cease fire was initiated allowing the Nazis time to fortify their defenses. The Nazis had advanced technology but their fleet of antigravtic saucers was just too small in numbers as well as their population to fight the entire world.
- The results of the mission are still classified, after 60 years. Only Admiral Byrd, who was interviewed by a Chilean journalist on his trip home from the expedition, commented on the sudden return home. He stated that there was a danger which this expedition had encountered that posed a threat to every nation in the free world. He declined to elaborate on this.

# National Security State

- After the American defeat in Antarctica. Between 1945 and 1948, the Nazis began infiltrating all world governments. These Nazis made an oath to resurrect a Fourth Reich in America, known as "Project Omega."
- Together with Nikola Tesla's technology, stolen loot, and secret police force headed by George Bush Sr., the 4th Reich forged their master plan and the final solution, which would bring about a fascist Nazi government in the United States under the heels of martial law, doing away with the constitution.
- Around this time the Roswell UFO crash took place; resulting in new media leaks about advanced technology and aliens.
- To control the narrative the National Security Council and MJ-12 were created to wrestle control of the alien presence away from the Department of Defense and the military.

James Rink

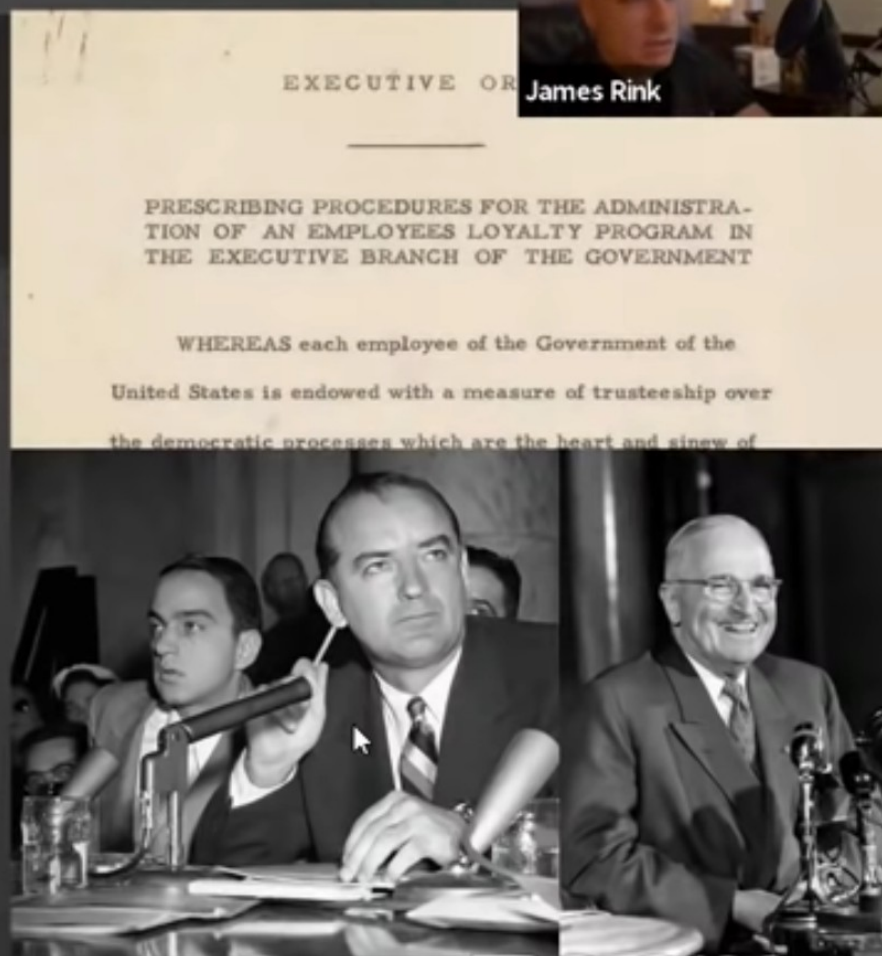

# National Security State

- Once the N.S.C. was established they recruited their man, George Bush Sr., to persuade congress into creating a secret gestapo police presence in the United States, known as the Office of Strategic Service, or the O.S.S. Two years later, in 1947, it became the C.I.A.
- Later The Nazis in the CIA initiated Operation Mocking Bird which would embed C.I.A. agents into the media in order to control the narrative and to prevent further leaks from occurring.

# Cabal Backlash

- In March 1947, a month after Operation High Jump ended in failure Truman sought measures to prevent a Nazi coup from taking place in the U.S. He signed Executive Order 9835, requiring all federal employees to be vetted by the FBI to test their loyalties.
- Later in 1950 to 1954, Senator McCarthy was tasked with tracking down more Antarctic and Paperclip Nazis, all the while the public was told the communists were the big bad wolf.

zoom

# The Secret Cold War

- A secret cold war had now commenced between the Cabal and the Nazi's.
- The Nazis wanted the Cabal to recognize the Antarctic Germans as a sovereign nation
- Their identity to be kept secret as the Antarctica Germans didn't want the world's people to panic and pressure their governments into using the new technology of nuclear bombs in Antarctica.
- By this time the Germans had time travel and interdimensional travel technology and was able to witness an alternate reality in which the Cabal detonated a Cobalt bomb in 1949 which burned up the entire planet.

zoom

# MAD - Mutually Assured Destruction

- The Cabal agreed to these terms because:
- They didn't want nuclear annihilation
- They didn't want the Germans to go public with their very advanced technology such as free energy which would make their fiat monetary systems obsolete, relinquishing their power over the masses.
- The Germans also promised to help advance the Cabal by teaching them theory, but not technology.

zoom

## 4<sup>th</sup> Reich Takeover

- Once a truce was made, 300,000 or so Antarctic Germans began to infiltrate the world economy.
- The Cabal allowed the Nazis to become embedded into thousands of corporations, ivy league schools, defense contractors, research hospitals, banks, embassies, etc. all of which required at least one senior level German executive.
- These Germans would be given fast track to upper management. A joint venture was now in the works but the peace would be an uneasy one.

# Lunar Operations Command

- 1947 is when the German's began building out their 20-acre Moon base in Draco territory know as Lunar Operations Command.
- As per the lease agreement the German's agreed to give the Draco 225 females and a 25-year refusal rights for new technology, limiting what technologies the Germans were allowed to have access too.
- When the Draco came to collect on their deal, they would freeze these women and later bring them out of stasis to mutilate, traumatize, or kill them.
- The ones who survived would have had their memories erased due to memory alternation technology.
- This began a very dark slippery slope of trading humans on planet Earth for technology; a problem which would only grow bigger over time.

James Rink

# Off World Bases

- By 1952, the Germans had lost 1,000 people building out their Moon base due to the harsh environment and the difficult conditions the Draco were placing them in.
- In the early 1950's the Germans were also busy building out their New Berlin bases on Mars and on the asteroid of Ceres as well as Titan.

# Paradise Mars

- Mars was colonized in the 1450's from Cyberlife cyborgs from our future.
- The 1950's Germans time traveled to paradise Mars in 1863 and set up colonies and began enslaving the local cyborg populations.
- The cyborgs wanted to have their own rights similar to humans but they were treated as a subrace; so, the cyborgs decided to destroy everything they didn't like.
- As a result, the Cyborgs dropped a cobalt bomb on Mars in the year 1900 which decimated the environment. Prior to the year 1900 the biome on Mars was a tropical paradise and more comfortable than even on planet Earth.

# Post War Mars

- From 1900 to 1950, the environment on Mars began to slowly mend itself but it was still an extremely harsh climate.
- Apparently the air is very breathable similar to a warm day at 8000 to 9000 feet attitude on earth with thriving animal and plants ecosystems.

# Post War Mars

- NASA is lying about the Martian atmosphere in which they claim is 96% CO<sub>2</sub> with trace amounts (0.15%) of O<sub>2</sub>.
- The sky has a very light blue tint due to its high CO<sub>2</sub> content within the air. Pictures are being photo shopped to be more red.
- To help with physical endurance; soldiers would wear patrol suits that would provide supplemental oxygen by immediately splitting the CO<sub>2</sub> from the O<sub>2</sub>, and spit out carbon pellets out the back of the suit.

zoom

# Post War Mars

- There are very dangerous lifeforms on Mars such as 7' tall spiders which could out run a human. Whistleblower, Andrew Basiago has shared testimony of seeing giant bus sized grasshoppers in equatorial Mars which are very fast and predatorial.
- Also, the cobalt bomb left an open wormhole to the year 1550 on paradise Mars that was causing the people who lived underground and, on the surface at that time, to lose their memories.

# SSP Mars

- By 1950 Mars was safe enough to be inhabited again provided all living structures were built underground.
- Initially, settlements were built in the equatorial regions of Mars but moved to a more northern and southern latitude in the ancient lava tube systems. HQ of the MCC is Aries Prime.
- Equatorial Mars was often plagued with huge electrical storms that would wreak havoc on their electronics.
- During this time, the Nazis lost 17,000 troops of their fittest and strongest stock in off world conflicts. This may not seem like a lot of people but considering there were only 300,000 Antarctic Germans, now, roughly one out of every 20 were dead.

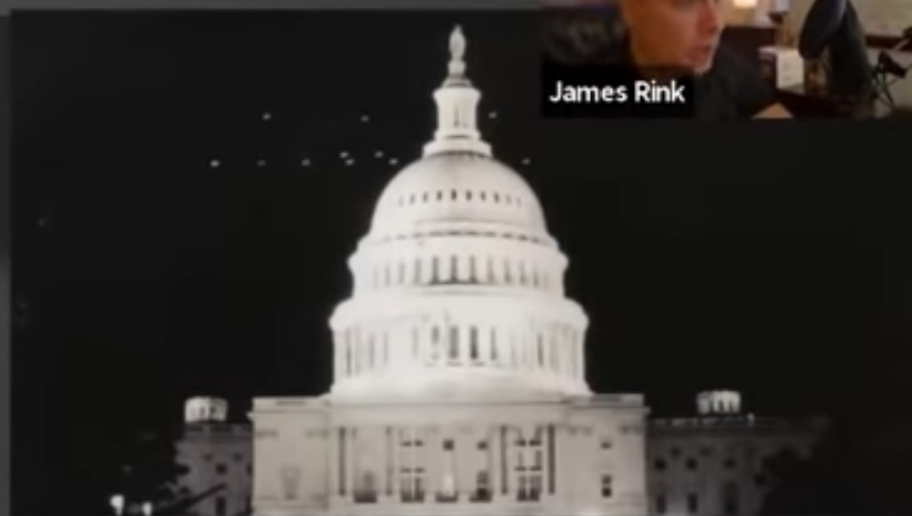

James Rink

# Military Industrial Complex

- To fix their personnel problems, German UFO sightings were increased to put pressure on the Truman administration and the Cabal to negotiate new treaty terms.
- Examples include a July 1952, a mass Nazi UFO sighting occurring over the Whitehouse.
- Also, some military pilots were seeing human pilots piloting these UFO's.
- Secret negotiations began to be discussed for a joint American-Nazi SSP or secret space program. This would ultimately create the shadow govt and a massive military industrial complex, led by MJ-12.

zoom

# Nazi-Cabal Treaty

- New relationship between the Nazis and the banking Cabal was very tense.
- Despite a treaty the Cabal was uniting against a common enemy. The U.S.A. gave away nuclear secrets to the U.S.S.R. and in 1949, the Soviets tested their first nuclear bomb. This was done to intimidate the Nazis and show a united front against them. The U.S.A. and U.S.S.R. were always secret allies, but they told the public otherwise.
- The Nazi's showed their power when they too detonated a nuclear bomb on an American heavy cruiser on its way back from bikini atoll after a 1954 U.S. nuclear test.
- The EMP disabled the cruiser. The Americans were able to get it running again and it limped back to Hawaii.
- The Germans believed the Americas would coverup the event; so they filmed it and sent boxes of films to every leader of the world so there was no question the Nazis had nukes and were willing to use them.
- The Cabal had no choice but to capitulate and enter into a formalized treaty.

# Cabal-Nazi Treaty

- 1955-1959 the Cabal and the Germans treaty negotiations take place at a base given to the Cabal in Antarctica under Operation Deep Freeze 1 and 2.
- There were two parts of the treaty; one was a public version and the other was a classified version. The public version agreed that Antarctica would be off limits to the rest of the world except the Cabal and the Nazis.
- The classified version granted the Germans 150,000 personnel of their own choosing from all over the world and 55,000 people each year thereafter for 5-year tours of duties.
- The Germans would be responsible for abducting the people, housing them, feeding them, clothing them, paying them, and then they would be given an option to become German citizens at the end of five years.
- If they did not want to become German then they would wipe their memories, reage them, and time traveled back to when they were taken as if nothing had happened.
- But from the start things did not turn out as planned. Most of these people were enslaved, denied payment, and instead of tours of duties of 5 years some were forced into 20-years or even multiple sets of 20 years, or they were never returned at all.

zoom

# Cabal-Nazi Treaty

- The Germans demanded at least one Antarctic German on the governing board of all the world's largest corporations.
- Larger companies may have had up to 5 to 10 Germans on their boards.
- Additionally, one German must be on the executive branch of every government. This meant the United States had multiple operatives.
- Their identity would also remain classified so the world would not gang up on them. The Cabal didn't want people to know Nazis were still in charge because they would lose their treaty which would result in more conflicts.
- In return the Germans would grant the Cabal access to their theories of advanced technology but not the full concepts. The Cabal was satisfied with these terms.
- In the 1960's the Cabal would continue to remain hostile towards the Germans. Cabal MIEC corporations like Rand Corporation, TRW, Philco, Lockheed, General Dynamics, Northrop Grumman Space Technology, NASA JPL, Boeing would develop very advanced technology but the Germans on the board of these companies would block the technology and transfer it to the Germans instead. This is why so many new advanced technologies appear in publications like Popular Science and then you never hear about them again.

Will 'Flying Saucer' Buses  
Lick Traffic Congestion?

zoom

# NASA

- Because the Cabal was not given full access to Nazi technology in 1958 they created NASA to siphon money into Cabal black projects to compete with the German's.
- The money siphoned would help fund the D.U.M.B.S. Deep Underground Military Bases and the American Secret Space program which was in joint venture with the Soviets. This would later become Solar Warden and Radiant Guardian.

# MKULTRA

- The 1960's was also a time when the Fourth Reich was busy advancing mind control on the masses.
- So, the Cabal also started to do their own mind control experiments with the C.I.A. Project MKULTRA in order to stay on top of the Germans.

# SSP Expansion

- In the 60's the Antarctic Germans built a second base in Antarctica.
- Task groups were created to expand out into the solar system, such as a base on Ceres, Moons around Saturn, Kuiper Belt, and Oort Cloud; and they would even time travel back in time 400 years to settle planets all around the milky way galaxy.
- Over 3 billion people now live off world under various German SSP groups; protected by the Nacht Waffen which translates into Dark Fleet.

# Nacht Waffen- Dark Fleet

- Nazi Breakaway Civilization - Nacht Waffen - Dark Fleet's starships are massive and can be up to 20 miles long.
- When they need to build a new battle cruiser for example, they simply place an order and a team time travels back 20 years into the past and completes it instantly from the perspective of the buyer.
- Nacht Waffen considers themselves more German than Nazi. Ranks include 5th Reich Germans consisting mostly of German aristocracy, Teutonic Knights, and the Thule Gesellschaft.
- Officer Class are infected with Black Goo

# Yozora No Kyushu

- The Japanese SSP component of the Axis Powers was also granted access to these programs and refer to themselves as, Yozora No Kyushu, which translates into Dark Night.
- The technology of these groups is more advanced than Star Trek, but the architectural designs still maintain a 1940's type look to them.

# Hong Long

- Hong Long - Red Dragons was the Chinese version of the Secret Space Program.

zoom

# Raising Red Star

- After the fall of the Soviet Union around the mid 90's the Soviets lost their space fleet.
- For a brief period, they had even named their SSP program The Raising Red Star.
- What was left was a group of derelict roaming vessels and bases that were "reclaimed" by either the I.C.C., the Merchant Marine Fleet, and the remaining hold outs would join Solar Warden in the early 2000's. Their ships were real junk too.

zoom

# Jump Gates

- In the 1960's the Germans obtained jump gate technologies allowing them to instantly teleport between worlds; but it was and still is, restricted in use for only the elite and German officer class.
- These gates are also found within Hilton Hotels often used by the elite to commit satanic rituals.
- As reported by Andrew Basiago, one jump gate is located under the building at 999 N Pacific Highway next to LAX, which travels to a facility in New Jersey as well as the Moon and Mars.
- It looks like a elevator, you walk in and the walls curve around you then 10 minutes later you are at your new destination.

Jump gate located under this building in El Segundo, Ca

zoom

# Brain Drain

- The 60's was when the first five-year loaner program came to an end.
- Participants were supposed to be reaged and time traveled back to when they were taken.
- However, the Germans kept 90% of the people they acquired. Hence the scientist brain drains of the 1970's and their falsified death reports.

zoom

# Blank Slate Technology

- In the 1970's the Cabal discovered the Germans had memory wipe technology allowing for 100% informational secrecy.
- This is why so few people remember or know about the SSP.
- The Cabal coveted this technology greatly and eventually got their hands on it in 1979, thanks to a joint K.G.B./C.I.A. operation in which they got one of the Antarctic German security forces to turn. After they acquired the tech, they made it look like they accidentally discovered it.

# Blank Slate Technology

- When the Germans realized their memory wipe technology was stolen in 1986, they retaliated by destroying the Challenger space shuttle and the cooling towers at Chernobyl.
- The Germans also moved all German manufacturing and R and D off planet.
- The Germans were very worried cowboy president would retaliate with nukes; so, they sent a brown paper package to Reagan and Gorbachev with an old 1979 non-operational memory wipe device which by the late 80's the Cabal was able reverse engineer and incorporate into their black projects.

James Rink

zoom

## SSP in the 1970's

- In 1972 the 25-year Draco first refusal rights had come to an end. This meant the Germans could now keep the technologies they acquired.
- By the 1970's the Germans got their populations up in outlying colonies to self-sustainable levels.
- They also began to master time travel technology. Time is circular not linear. If you change Point A, Point B will change into a timeline fold back resulting in Mandela effects. To create a minimum of timeline ripples they have to be very careful of going into the past and changing the outcomes of timelines as they would find something else would happen, and now, they would have multiple problems.

James Rink

# Interplanetary Corporate Conglomerate

- Created around the mid-1970s the tasked with running Lunar Operations Command on the Moon and the Mars Colony Corporation colonies on Mars.
- I.C.C. policy would be dictated by group of seven mobster families known as the Triumvirate.

*I.C.C. logo courtesy of El Ka. The stars represent navigation, the wings symbolize freedom of space flight. Thunderbolt is the power to succeed. The silver pyramid is for hidden knowledge and the crown represents their elite trained assets.*

# Joint Defense Command Force

James Rink

- The I.C.C. also established the J.D.C.F or Joint Defense Command Force which oversees the military branch of the SSP which includes the Mars Defense Force, Earth Defense Force, and now the Space Force.
- J.D.C.F. headquarters is on the Moon but they have training facilities on both the Moon and at the Mars Colony Corporation headquarters at Aires Prime where they also subcontracted mercenary work to the Kruger military contractor.
- Americans could participate in these forces but the Germans maintained control over these programs.

zoom

# Kruger and Mars Defense Force

James Rink

- Whistleblower Captain Randy Cramer, of the United States Marine Core Special Section has shared his story extensively about his time embedded with the Mars Defense Force.
- 1970's Mars required much military and security personnel as the planet was ravaged by fierce territorial battles between 7-foot-tall sentient insectoid and 8-foot-tall sentient reptilian races.
- Mars Defense Force and private military contractors such as Kruger were tasked with exterminating and clearing the native fauna to protect human settlements.
- Kruger uniforms were a light Brown color with yellow lettering on them.
- The Mars Defense Force used Digital Camo that was actually a mesh uniform that had a metal mesh in the fabric.

*M.D.F. Kruger super soldiers battling native Martian reptilian populations.*

# Intergalactic Expansion

- Today the I.C.C has over 100 colonies, bases, and industrial facilities on the Moon, Main Asteroid Belt, Mars, and several other Moons and bodies in our solar system.
- They also have ongoing trade agreements with almost 900 civilizations and operational bases in almost all of the 53 local star clusters around us, but most are observational outposts.

James Rink

zoom

# Intergalactic Expansion

- There are 20 I.C.C. cloaked stations currently in our galaxy.
- The first three cloaked stations are orbiting around Earth and are research facilities learning how to create sustainable living environments in outer space for long term travel to far away galaxies.
- Three other stations do research on how to successfully create hydroponics and aquaponics gardens on space ships and stations, as well as studying how bacteria and viruses survive in different space environments.
- Six stations around Mars are building War Ships for interstellar defense of the Milky Way Galaxy.
- There are four stations around Jupiter, two near Saturn, three near Venus, one beside Pluto, and the last one near Uranus.
- There are also minor stations used for spying and recon on the activities other SSP factions within our galaxy.
- These stations have world engines made from plasma generators so they can travel out in space and they are not necessarily stationary.

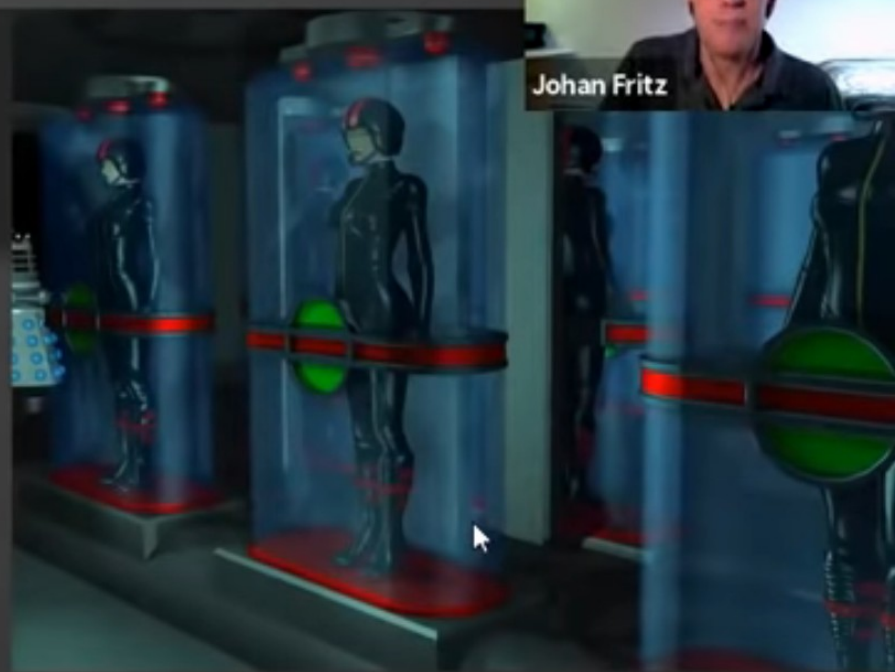

zoom

# Merchant Marine Fleet

- The I.C.C. oversees the Merchant Marine Fleet.
- Their job is to trade supplies between bases and to figure out what to do with them.
- They are also the number one transporter of slaves and the second biggest transporter of weaponry technology.
- So, for example these vessels would kidnap people on planet Earth that were about to die from a plane crash. No one would even know they were gone.
- These people would then be either converted into cyborgs for slave labor, converted into food for regressive species, or sold to alien groups for breeding experiments.
- Breeding pairs are considered more valuable cargo. In return the M.M.F. would obtain advanced weapons and technology for their colonies.

Johan Fritz

zoom

# Human Trafficking in the SSP

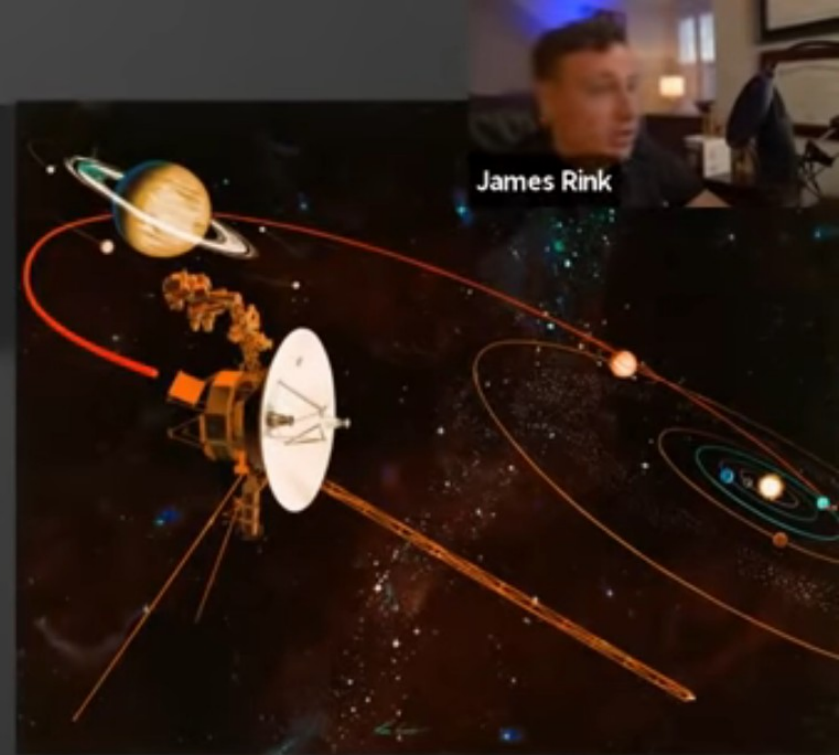

- This is why the I.C.C. has continued hiding their presence from Planet Earth.
- No one wants to take responsibility for the actions that have resulted in human slavery and the I.C.C. continues to have a massive demand for new personnel in their off-world bases in their 20, 40, or 60 years and back programs.
- Over time, the annual abduction quota on planet Earth would steadily rise from 55,000 people in 1959 to over 1 million by the year 2020.
- The good news is in 2020, only a tiny .01% fraction are sold as slaves or food.

James Rink

## Agenda 21

- In 1980 the Cabal built Voyager I and II spacecrafts successfully passed Jupiter and the Saturn area.
- The Cabal wanted to see the build out of the Antarctic German bases. What they saw shocked them. The Cabal realized they were very far behind the Germans technologically.
- So, they decided to accelerate their plans for world domination by speeding up the depopulation timeline. The cabal does not want humanity to awaken as advanced technologies would soon make central banks and fiat money obsolete.

# Solar Warden

- In 1980, the Cabal briefed the Regan administration about the I.C.C.
- During this time the Cabal were setting up their own secret space program under the cover name of S.D.I., Strategic Defense Initiative, also known as Star Wars.
- This SSP group would call themselves Solar Warden. Enlisted officers included participants from all nations that had a Cabal controlled central bank but upper management was drawn from Naval Space Command.

# Solar Warden

- Solar Warden may have existed prior to 1980 under a different name.
- William Tompkins mentioned that the Americans got ahold of German antigravity craft schematics during World War II.
- NASA scientist Wernher von Braun, worked with the Germans to help build out the 20-acre Moon base as well as secretive rotating space platforms serviced by Solar Warden.

# Solar Warden

- According to Gary McKinnon who hacked NASA star people files in 2002, it was found that the American side of the SSP would be called Solar Warden and operate under the US Naval Network and Space Operations Command (NNSOC) based at Area 51 and Pine Gap, Australia.
- Solar Warden also works with LOC (Lunar Operations Command) which operates the Earth Defense Grid from three sites on the dark side of the Moon.

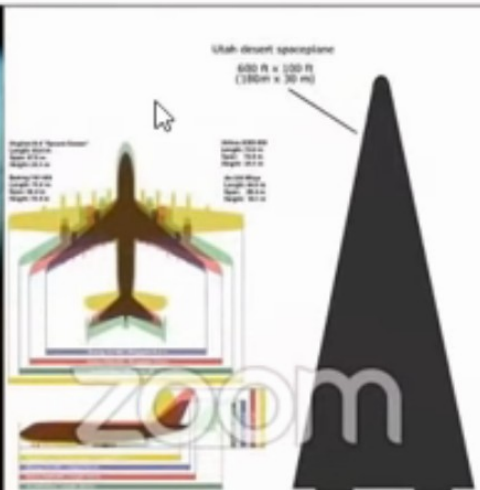

# Solar Warden

- First Solar Warden vessels were built in the 1970's inside massive underground shipyards beneath the Wasatch Mountains of Utah.
- They would convert submarines for spaceflight with a temporal drive based on "principles of quantum entanglement between certain isotopes."
- Their largest craft is 2km (1.2 miles) long and their fleets include carriers, fighters, triangular shuttles, research vessels, troop transport ships, hospital ships, and supply ships.
- Tasked with securing the area between Earth and the Moon because there's way too much stuff going on out there.

Combined with testimony from MILAB whistleblower Corey Goode regarding the Solar Warden ships, we are able to piece together a possible look and feel of the ships they both discuss. Given that this program would have begun in the late 80's it's reasonable to assume it would look like something produced by a joint venture between all of the top aerospace manufacturers of the time: Lockheed, Northrop, Boeing and British Aerospace.

# Radiant Guardian

- In the 1990's, Solar Warden's fleet was divided in half.
- Solar Warden would control the region from the Sun to the Mars ring asteroid belt and Radiant Guardian would be tasked with controlling the region from the Mars ring to the end of our solar system near the heliosphere or out toward the Oort cloud where they have bases.
- These guys will patrol these areas to make sure they've got supplies, make sure there's nothing going on or anyone coming in the system that should not be there.
- If we have a particular big orbital problem, say for example, comet or asteroid they may take care of that as well.

# The Federation

- The Federation is also known as the Intergalactic League of Nations on Planet Earth and interface with the UN.
- They are a group of ETs that oversees and enforces the protection of underdeveloped species; which we were for a long time, and why the Draco were hiding their presence.
- This is all tied into ancient wars between the Draco and humanity which resulted in the destruction of Atlantis and Lemuria.
- Many of them don't want to get involved as they view the situation on Planet Earth to be so bad.
- They plan on announcing themselves to the public around 2022-2024. Though negotiations are in works to hold off till 2034.

# Nazi-Cabal Joint Venture

- Around 1990, the Antarctic Germans had moved the bulk of their operations to Mars.
- They also acquired new property on the Moon so they would not have to be as close to the Draco.
- Their treaty with the Draco stated that if they evacuated their base, they would need to find a new tenant. So, they gave this base to the Cabal.
- The Cabal paid for this Moon lease with 25,000 ground troops so that Germans could use them on Mars to expand their territories and for border control.
- Estimated total Cabal budget fed into the SSP is about \$100T annually.

# IDARF

Johan Fritz

- In 1991, the Cabal and the Mars Germans signed a cooperative action treaty allowing the Cabal to take over the 20-acre Moon Base in Draco territory.
- They also created I.D.A.R.F. which stands for the Interplanetary Defense and Reaction Forces. The I.D.A.R.F. regiment was told they would be helping to save the indigenous populations from alien aggressors. But in reality, both sides, the military and alien aggressors were being manipulated and controlled by the Draco.
- In the 2000's once the Cabal got their own SSP fleet under I.D.A.R.F. and with help from the Draco, they began taking over other worlds, many of them occupied with humans; and installing loyal Cabal families, central banks, and fiat monetary systems to control the masses.

zoom

# Alliance

- In 2018, 20 percent of Nacht Waffen vessels broke away to form the Alliance.
- The Draco, infected with Black Goo had begun requiring executive level officers to also consume Black Goo.
- Black Goo is a sentient A.I. biobot goo that was discovered on a planet far outside our galaxy. Consuming it causes your I.Q. to shoot up astronomically but, in the process, you lose what makes you human. Your connection to god source becomes overwritten by A.I., members become locked into a hive mind matrix resulting in more cruel, negative, and unemotional behaviors.
- In addition to this problem, the officer class was also very upset with the human slavery issue.

zoom

# Alliance

- The Alliance works with Earth Alliance which protects Planet Earth.
- Unlike the Earth Defense Force, which reports to the I.C.C.,
- The Earth Alliance reports to the Alliance.
- The Alliance is considered a positive SSP faction and is seeking a timeline of public disclosure of the SSP to humanity.

zoom

# Space Force

- By 2020, the I.C.C. controlling council had grown to about 12 members.
- One of which, is Space Force
- The General in charge of the council is a white hat who is seeking preparation for disclosure of the SSP to humanity.
- There is a battle between slow disclosure over a 50 year period or fast data dump to get the rest of humanity upgraded quickly.

zoom

# Planetary Corporations

- Planetary Corporations work with the SSP to provide technology, assets, and personnel for ongoing operations.
- Most are not working for the benefit of humanity.
- Planetary egregory switched to 50% positive in April 26, 2020 which is causing some of the old negative timelines and the control of these groups to fade away from our reality.

zoom

# Monarch

- Monarch - Responsible for everything bad on this planet. Implicated in human trafficking, sex and mind control experiments, as well as chemtrailing the public with chemicals and biobots made in laboratories on Mars.
- Negative breakaway group from Atlantis dating back 6,000 years ago
- Massive DUMB on the border of US and Canada near Toronto.
- Lead by Paul Serene whose clone is the actor Kevin Spacey

MONARCH

zoom

# Mobius

- Operate outside our reality in a pocket reality.
- Works closely with Monarch
- Seeking to enslave humanity using proxy groups, corporations, secret societies, and the money control system.
- Mobius is led by Kara Sandman, her clone in this reality is the actress Cara Delevingne.

zoom

# Umbrella Corporation

- Umbrella is from an alternate reality which released the Oroborus Zombie Virus.
- Works closely with Monarch, Mobius, and Dark Shield.
- Headed by Richard Bay whose clone in this reality is the actor Tom Cruise.

# Shaw House

- Shaw House is based in central London with many entrances located near the Tower Bridge.
- They own many normal looking homes in the area but they all connected to an underground DUMB which resides in a pocket reality outside of our reality.
- They work closely with Monarch and Mobius. Infiltrated and sabotaged the M.C.C. by kidnapping people, making them slaves and prostitutes, and conducting black magic rituals.
- Controls the British Royal Family
- The organization is led by Heather Shaw and her clone is the actress Vanessa Kirby.

zoom

# Scorpion Corporation

- Scorpion Corporation represents a group of Illuminati aligned individuals; who love to create long term plans bringing about chaos and destruction.
- In the midst of the chaos they come in with their needle spike to bring about order.
- They are based in another pocket reality and worked closely with the Montauk Project in this reality along with Monarch, Mobius, and Umbrella.
- Their members are usually hybrids and crossbreeds.
- They are implicated in utilizing trauma-based mind control, time travel, and consciousness experiments which caused the deaths of over 100,000 children in time travel experiments in the Montauk Project.

zoom

# Massive Dynamic

- Fictionalized in the Fringe TV show and cortexiphan experiments.
- Works closely with Monarch and Mobius, but smaller and based in UK.
- Due to ongoing operations cannot mention much more about them.
- Parkland Shooter Nikolas Cruz was being loaded up with cortexiphan , shapeshifted into a super soldier with a lion face with weapons which popped out of skin. MIB erased memories and wiped cameras of the event.

# Dark Shield

- Dark Shield is an Antarctic Nordic base in a pocket reality outside of time.
- They got their portal tech from Monarch and Mobius. They also work with Umbrella Corporation.
- The facility was given to the Third Reich Nazis to experiment on clone cyborgs and augmentations in order to create an upgraded Lichsoldaten super soldier.
- The facility is now under control of Dark Fleet.

# Cyberlife

James Rink

- Cyberlife featured video game “Detroit Become Human”
- Creating androids which look just like people except they don't need food, make poo, and require temperature-controlled environments.
- They do have feelings and a soul but it's not like a human soul.
- They have sent androids back in time to set up settlements in Mars in the 1450's.
- They have also sent androids back in time to present day Planet Earth to a facility underneath Detroit which now represent 33% of the population.
- Cyberlife is run by the android Kara.

zoom

# Neurocore

- Neurcore is a subdivision of Cyberlife.
- They also work closely in tandem with Monarch and Elon Musk to create the Neurolink technology allowing your brain to telepathically communicate with A.I.
- The neurofeedback device looks normal but it implants femtotech in the hosts body in the first exposure.
- It also enhances brainwaves so they are more easily entrained by Monarch.
- This might explain who Elon Musk works for.

zoom

# DARPA

- D.A.R.P.A. is the Defense Advanced Research Projects Agency, founded in 1958.
- They are tasked as the R&D division of the Department of Defense. They seek to apply emerging technologies to help better equip the U.S. armed forces.
- DARPA is considered the bottom of the barrel of the planetary corporations because they would get the old outdated technology scraps from the other planetary corporations.
- Congress throws them about \$3.4 billion dollars each year but most of their money (\$20B+ off the books) is made through subcontracting to all the really bad planetary corporations like Monarch, Mobius, and Umbrella as well as Cabal groups some of which do not have humanities best interest in mind.

# Kruger

- Originated in a parallel reality in which the Nazis won World War II.
- Kruger was founded by Gabriel Kruger as a Nazi military and weapons contractor.
- Works closely with Mars Defense Force on Mars and has a facility on the Moon.
- Considered to be more positive of the factions and upper management is ready to release military records to Kruger Vets when ET disclosure is publicly announced.

# Black Ops

- Lincoln Clay is the director of all black op's on Planet Earth which also stretches off world at times.
- The name of his group is Earth Defense Force.
- Lincoln Clay is a huge African American guy about 6'10" but is probably one of the friendliest polite people you can meet.
- He is in charge of 100 million clone soldiers in stasis which would be brought out to fight the New World Order had that happened.
- Currently working to bring about positive change in this part of the galaxy and Planet Earth.

zoom

# ACIO

- The Alien Contact Intelligence Organization, also known as Advanced Contact Intelligence Organization, A.C.I.O., operates as liaison between humans and ET's to promote cooperation and agreements between our species.
- Alphabets such as NSA, CIA, and NRO have almost no access and do not know what's going on, on this planet. However, the ACIO has records on everyone on the planet which go approximately back 40,000 years.
- They are based in Area 51 and Pine Gap, Australia. The organization is managed by the Republic of the A.C.I.O. located in another pocket alternate reality.
- Division Six is the Men in Black

# James Rink Bio

- Spent a total cumulative of 330 years in the SSP and much longer in other parallel realities.
- Project NAME RECOVERY - 1979. Deceased super soldier given a new name and reaged into a baby.
- PROJECT SURROGATE - 1980- Present - Given a surrogate family to raise the child as their own into adulthood under monarch programming.
- MK ULTRA MILAB Super Soldier experimentation.
